### First Voyage Around the World (1519-1522): An Account of Magellan's Expedition (Lorenzo Da Ponte Italian Library) By Antonio Pigafetta

On 10 August 1519, five ships departed from Seville for what was to become the first circumnavigation of the globe. Linked by fame to the name of its captain, Magellan, much of the expedition is known through the travelogue of one of the few crew members who returned to Spain, Antonio Pigafetta. A narrative and cartographic record of the journey (including 23 hand-drawn watercolour charts) from Patagonia to Indonesia, from the Philippines to the Cape of Good Hope, Pigafetta's *The First Voyage around the World* is a classic of discovery and exploration literature.

This volume is based on the critical edition by Antonio Canova. It includes an extensive introduction to the work and generous annotations by Theodore J. Cachey Jr who discusses the marvelous elements of the story through allusions to Magellan's travels made by writers as diverse as Shakespeare and Gabriel García Márquez. However, Cachey is careful to point out that Pigafetta's book is far from just a marvel-filled travel narrative. *The First Voyage around the World* is also a remarkably accurate ethnographic and geographical account of the circumnavigation, and one that has earned its reputation among modern historiographers and students of the early contacts between Europe and the East Indies. Expertly presented and handsomely illustrated, this edition of Pigafetta's classic travelogue is sure to enlighten new readers and invigorate the imagination as the story has done since it first appeared.

### Editorial Review

From Library Journal

On August 10, 1519, five ships and 250 men led by Ferdinand Magellan left Spain to attempt the first circumnavigation of the globe. Three years later, on September 6, 1522, one ship carrying 21 men returned to Seville. Written by a surviving crew member in the hope of receiving a "not slight remuneration" from the governor of Rhodes, it contains Pigafetta's clear-eyed account of the wonders of the New World: native peoples, plants, foods, and sea and land animals. Edited by Cachey (romance languages, Notre Dame), his fascinating account contains an erudite introduction, maps, extensive notes, and a bibliography. Pigafetta paid particular attention to geography and the languages of the peoples he encountered; his effort resulted in 23 maps and several word lists that will engage the most casual reader. Highly recommended for academic and public libraries. ?Caroline Mitchell, Washington, D.C.
