### Seizing the Enigma: The Race to Break the German U-Boat Codes, 1933-1945 By David Kahn

For almost four desperate years, from 1939 to mid-1943, the British and American navies fought a savage, losing battle against German submarine wolfpacks. The Allies might never have turned the tide without an intelligence coup. The race to break the German U-boat codes is one of the greatest untold stories of World War II. Kahn expertly brings this tale to life in this newly-updated edition of his classic book.

Soon after war broke out, Hitler's U-boats began to sever Allied lifelines. In the gray wasteland of the North Atlantic, submarines prowled; at night, the sky lit up with the flames of exploding tankers. To meet the growing crisis, ingenious amateurs joined the nucleus of dedicated professionals at Bletchley Park. As the Battle of the Atlantic raged, they raced to unlock the continually changing German naval codes. Their mission: to read the U-boat messages of Hitler's cipher device, the Enigma.

Critical to their success was a series of raids at sea. U-110, captured intact in the mid-Atlantic, yielded the Enigma machine itself and also a trove of secret documents. The weather ship Lauenburg seized near the Arctic ice pack provided codesettings for an entire month. In the Mediterranean, two sailors rescued a German weather cipher than enabled the team at Bletchley to solve the Enigma after a year-long blackout.

### Editorial Review

#### Review

“[Kahn’s] 1997 history of cryptology *The Codebreakers* is regarded as the seminal work on the subject. One senses that in the future *Seizing the Enigma* will be regarded in the same vein. Kahn tells a long and technically demanding story with all the skills of a professional journalist. He deftly mixes intricate accounts of the workings of the Enigma machines themselves and their accompanying codes with useful pen portraits of the principal characters involved...an absorbing and thoroughly well documented account.” ? **Naval Books of the Year column in *Warship*, 2013**

“The book remains a highly recommended account with a wealth of materials.” ? **Naval History Book Reviews, Naval Historical Foundation**

#### About the Author

David Kahn holds a PhD in history from Oxford University. He worked for thirty years as a journalist in New York and Paris, and taught intelligence courses at Yale and Columbia. In 2002, he was scholar-in-residence at the National Security Agency in Washington, D.C. His massive history of cryptology, *The Codebreakers*, is still considered the standard work on the subject.

### Users Review

#### From reader reviews:

##### Richard Rhone:
