### Editorial Review

#### Review

"This new edition covers so much terrain of the urban scholarship that it is truly a very comprehensive and interdisciplinary reader for any course on cities and urban studies." ?Xiangming Chen, Trinity College ?A rich and varied collection of important articles on cities. Selections range from older classic pieces to more recent insights, and the book provides a nice mix of European and American views of cities, whilst including writings about other areas of the world, especially China. Altogether this is an excellent and exciting collection of major writings.? ?Anthony M. Orum, University of Illinois ?The second edition of The Blackwell City Reader is even better than the first ? and that was a milestone. The Reader covers the full spectrum of approaches to the city concisely but with real authority. As a result, it is a vital introduction to thinking about cities in a time when global problems and urban problems have become effectively interchangeable.? ?Nigel Thrift, University of Warwick

#### From the Back Cover

Updated to reflect the most current thinking on urban studies, this new edition of *The Blackwell City Reader* brings together a wide range of essential readings relating to the analysis and experience of cities across the globe. Selections are carefully gathered from a variety of academic disciplines ranging from architecture, sociology, and literature to cultural studies, philosophy, and even psychoanalysis to provide the most diverse perspectives and in-depth coverage of the field. The new edition incorporates major developments in the study of materialities and mobilities, two areas at the heart of many contemporary debates; it also features enhanced coverage on non-Western cities that reflect recent growth trends, especially in Asia, China, and India, making it the most international reader of its kind.

*The Blackwell City Reader, Second Edition* combines established and novel readings from a wide range of theoretical perspectives and geographical locales to provide an indispensable source for the most up-to-date thinking on cities of today and tomorrow.
