Financial Accounting in an Economic Context By Jamie Pratt

Financial Accounting in an Economic Context has become an important part of the curriculum in many MBA programs. Grounded in financial statements, Pratt's *Financial Accounting* helps students see the impact of transactions on overall business decisions. The text enables MBA students to become effective managers and decision-makers by encouraging them to develop a conceptual understanding of the impact that economic events have on a business. The newest edition on this popular text addresses topics that today's accountants and managers must consider: increased impacts of IFRS, fair value reporting, segment reporting and an earnings management framework. While addressing recent developments and maintaining the perspective of the previous editions, *Financial Accounting in an Economic Context 8th Edition* offers new elements designed to sharpen the text's economic decisions-making foundation. The text highlights the differences between IFRS and GAAP throughout each chapter. Each chapter closes with a "Issue for Discussion" feature, allowing students to apply data found in the financial statements of an international company. New boxed-in features illustrate the effects of accounting transitions on cash flow of statements and new end of chapter items address the cash flow effects of accounting transactions.

Editorial Review

Users Review

From reader reviews:

George Clark:

What do you concentrate on book? It is just for students because they're still students or the idea for all people in the world, exactly what the best subject for that? Simply you can be answered for that concern above. Every person has diverse personality and hobby for every other. Don't to be compelled someone or something that they don't want do that. You must know how great along with important the book Financial Accounting in an Economic Context. All type of book can you see on many sources. You can look for the internet sources or other social media.

Ben Hernandez:

Do you one of people who can't read pleasant if the sentence chained inside the straightway, hold on guys that aren't like that. This Financial Accounting in an Economic Context book is readable by you who hate those straight word style. You will find the details here are arrange for enjoyable reading experience without leaving also decrease the knowledge that want to deliver to you. The writer of Financial Accounting in an Economic Context content conveys the idea easily to understand by many people. The printed and e-book are not different in the content material but it just different such as it. So , do you nevertheless thinking Financial Accounting in an Economic Context is not loveable to be your top list reading book?

Brett Baker:

Are you kind of stressful person, only have 10 as well as 15 minute in your moment to upgrading your mind proficiency or thinking skill also analytical thinking? Then you are experiencing problem with the book when compared with can satisfy your small amount of time to read it because pretty much everything time you only find publication that need more time to be study. Financial Accounting in an Economic Context can be your answer as it can be read by a person who have those short time problems.

Judith Bowman:

As a scholar exactly feel bored to reading. If their teacher questioned them to go to the library or make summary for some guide, they are complained. Just very little students that has reading's spirit or real their pastime. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading critically. Any students feel that reading through is not important, boring along with can't see colorful images on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this era, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this Financial Accounting in an Economic Context can make you really feel more interested to

read.
