### God's War on Terror By Walid Shoebat

God's War on Terror is one of the most important books ever to be written on End-Times prophecy. As Walid says, I wasted my college days taking courses on Psychology 101, English 101, and Sociology 101 but I never imagined Futurology 101! The Bible, as I found it, is not simply a book on personal devotion as is commonly thought; it is a detailed roadmap with mountains of evidence that God exists. His design from time immemorial, regarding man's destiny, is filled with countless details about the future, especially the coming war with an Islamic coalition against Christianity and Israel. In fact, all of the references in the Bible to nations, against which God declares His war in End-times, you will find, are all Muslim.

### Editorial Review

From the Inside Flap

From every area of the free world, strong evidence is reaching us of crimes and atrocities committed by Islamic fundamentalists in the name of Allah. A great many Muslims, "educated" people, and our elected leaders known about these crimes; those who do not know, do not know because they do not want to know. They do not ask questions because they are afraid of the answers. They fear the knowledge of what they are tolerating, but the ones among us who are open to seeking truth and justice know how to differentiate between criminals and their victims. The people of the civilized world now have to prove by deed where they stand; mere words will not be believed by a world that witnesses the crimes against God's people and my Christian brethren.

In the past I have sinned greatly against God's people, but because of the grace I received through Christ, I am working to rescue them from injustice.
