Tech Savvy (The Hart Series Book 2) By L.M. Roberts

1 company + 2 techies = True Love

Blake never thought that he would fall in love. He always thought love was a figment of a person's overactive imagination. Being the COO of Hart Inc. he has to make many sacrifices and at the top of those is having a life that he can call his own. When he meets a quirky technician at his new Miami office, he is surprised to find out she is also his new assistant. He can't believe his eyes, he's never seen someone so beautiful in his whole life.

Piper is the girl that no one liked when she was growing up. Only because she knew what she was doing with computers and was great at it. After escaping traumatic and dangerous trials, she sets her sights on Hart Inc. landing a job in the tech department. Knowing this is the job of her dreams, she can't help the fact that the reason she goes to work every day now is to see Blake Hart, her new boss.

Will love be able to conquer all, or will the past come back to haunt them in ways they could not possibly imagine?

As a college student exactly feel bored to reading. If their teacher expected them to go to the library or even make summary for some book, they are complained. Just small students that has reading's internal or real their hobby. They just do what the teacher want, like asked to the library. They go to at this time there but nothing reading critically. Any students feel that reading through is not important, boring and can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this Tech Savvy (The Hart Series Book 2) can make you sense more interested to read.
