

Beginning GIMP: From Novice to Professional (Expert's Voice in Open Source)

By Akkana Peck

Beginning GIMP: From Novice to Professional (Expert's Voice in Open Source) By Akkana Peck

The GIMP Version 2.4 will be released end of 2005. We'll likely be first to market a book about the new version. Other books are pre-Version 2.4 and very outdated

Takes a project-based approach. Reader will be taught through real-world examples and projects immediately applicable for their own work

GIMP is an emerging technology in Open Source that has been making big headlines. Was used to make the Scooby-Doo movie and the official mascot of Linux (Tux)

GIMP works on Mac OSX, Linux, and Windows. This book shows how to install it on each platform.

Editorial Review

Review

From the reviews:

"Peck's textbook provides a thorough treatment of topics ranging from installation (on various platforms) and background on common graphic file formats, to drawing, photograph manipulation, filters/effects, and even scripting In addition, a thorough treatment of the tools useful to experienced designers is provided Peck's book is effective in showing just how far GIMP has progressed in 12 years. Beginners may be surprised ... with this free application, especially with the assistance of this clear, concise, and attractive textbook." (Ian van der Linde, ACM Computing Reviews, Vol. 49 (2), February, 2008)
