Fear the Sky (The Fear Saga) (Volume 1) By Stephen Moss

"Perfect for fans of Peter F. Hamilton, Iain M. Banks, and Orson Scott Card, Fear the Sky is a hard hitting sci-fi thriller that will have you looking at the stars in a different way."

In eleven years time, a million members of an alien race will arrive at Earth. Years before they enter orbit, their approach will be announced by the flare of a thousand flames in the sky, their ships' huge engines burning hard to slow them from the vast speeds needed to cross interstellar space.

These foreboding lights will shine in our night sky like new stars, getting ever brighter until they outshine even the sun, casting ominous shadows and banishing the night until they suddenly blink out.

Their technology is vastly superior to ours, and they know they cannot possibly lose the coming conflict. But they, like us, have found no answer to the destructive force of the atom, and they have no intention of facing the onslaught of our primitive nuclear arsenal, or the devastation it would wreak on the planet they crave.

So they have flung out an advanced party in front of them, hidden within one of the countless asteroids randomly roaming the void.

They do not want us, they want our planet. Their Agents are arriving.

"Fear the Sky is a brutal and powerful rendering of what would really happen if a race capable of interstellar travel set its sights on taking our planet from us. Book 1 in The Fear Saga sees very human protagonists pitted against an interesting and three-dimensional alien culture. It is as enjoyable as it is frightening." Bill Hartly - WBSN News

"Easily one of the most imaginative books I've read in recent memory. Stephen Moss' extremely well researched and creative thriller is put forth in shockingly elaborate style." Tom Quaranta

"...if Steven Spielberg hasn't picked up on this, someone else will before too long. Bravo Stephen Moss." Victoria van Hoorn

Fear the Sky, by Stephen Moss, is surging up the Hard Science Fiction rankings, and is the top selling independent debut in the category.

UPDATED EDITION: We are excited to release this updated edition of the hit sci-fi epic Fear the Sky, completely edited and revised. We hope you enjoy it.

About the Author

Stephen Moss was born in England, but spent time as a child in wildly diverse places, including several years in Brazil, Belgium, and Malaysia. He eventually settled in New York, but still travels avidly, something he uses as inspiration and input to his writing. Stephen is a fan of Hard SF by masters such as Iain M. Banks, Orson Scott Card, Peter F. Hamilton and the many other fantastic writers creating masterpieces every year. His first novel, Fear the Sky, combines his passions for science fiction with a solid, realistic foundation, with his passion for travel. The novel takes place across the globe, from London, to Brussels, to DC, to the Hindu Kush mountains of Afghanistan and Pakistan, to the back streets of Tel Aviv. The few places in the book which Stephen hasn't been to in person, he researches avidly, wanting to put his characters into the reality of their surroundings, and knowing that the settings for his stories are as important as the individuals he then paints into them. While Fear the Sky is Stephen's first published work, the second book in the series, Fear the Survivors, is nearly finished, and the third and final installment is already well in hand. If you would like to know more, and know when the next installment is available, you can find Stephen on Facebook at www.facebook.com/TheFearSaga, or you can send an email to TheFearSaga@gmail.com.
