### Editorial Review

Review

From the reviews:

"This is a textbook on diabetes addressed to primary care physicians and house staff. It is written by diabetologists and endocrinologists from the USA, and is meant for physicians who treat adult patients. It is a readable comprehensive text . . . . The book starts with a history of diabetes mellitus and ends with a chapter on resources for patients with diabetes." (Zvi Laron, Journal of Endocrine Genetics, Vol. 4 (1), 2005)
