Editorial Review

From Library Journal

Noll has written a very readable textbook. Though dealing with all denominations, it is centered on the rise and decline of Protestant dominance in the United States. Starting from colonial pluralism, Noll shows how Christianity was Americanized by the "great awakening," the Revolution, and other influences. Evangelical America, he says, began to erode during the Civil War and declined further under the influence of modernism and the social gospel. Examining various trends and leaders, Noll predicts that the 20th century will witness a return to pluralism. Though a little weak on the past 40 years, his book is an excellent overview of American church history. Space is given to minority influences, and hymns are used to show the common worshiper's viewpoint. Especially useful and unique is his section on the church in Canada, which provides great comparison value. Recommended for libraries needing a good, basic history of the American church.
