From CRC Press

Fat Injection: From Filling to Regeneration, Second Edition From CRC Press

Fat grafting has become the revolutionary technique for solving a host of aesthetic and reconstructive problems. It is one of the hottest topics in surgery today with a growing array of applications. The first edition of this book set the standard for information on this topic. The second edition continues that trend with new chapters and contributors, totally revised and updated chapters, and the latest research findings to dramatically influence how fat grafting is used and its role in tissue regeneration. In addition to all of the content changes, Drs. Coleman and Mazzola have added a new editor, Dr. Lee L.Q. Pu.
