The Catchers of Heaven: A Trilogy By Michael Wolf

Stroll through time and space; witness spirituality, creation, and the love of family; experience joy, sorrow, laughter, faith, and hope; question, reason, and perhaps agree with theories on cloning humans, UFOs, alien contact, and abduction experiences.

In these pages, Dr. Michael Wolf addresses the topics of art, science, and religion, and encourages an understanding of the connection between time and space, the continuing creation of the universe, the impact of environmental hazards on this biosphere, and his classified work for the U.S. government.

For those with open minds and hearts, this intricately woven tapestry, "The Catchers of Heaven," can be life-changing. Wolf takes us to the edge of a new realization, where we glimpse what may be happening throughout the far reaches of the universe.

Dr. Wolf, Chancellor Emeritus of The New England Institute for Advanced Research, is a patron and member of The New York Academy of Sciences and The American Association for the Advancement of Science.
