MARIJUANA KILLED MY CANCER and is keeping me cancer-free: Step-by-step guide how to kill your cancer with cannabis. The healing miracle of CBD plus THC By Erika Karohs

A practical, easy-to-understand guide how to kill your cancer with cannabis and keep yourself cancer-free

Don't expect to hear this from your doctor!

In 2012, the author's son Mike was diagnosed with Hodgkin's lymphoma. After three operations, including a colostomy and subsequent chemotherapy, mother and son searched for alternative treatments, but most of what they found was snake oil information—dishonest people trying to sell so-called “miracle cures” to vulnerable patients,” often with fancy sales pitches.

A German university's research article about cannabis cancer treatment changed Mike's life. After five months of cannabis therapy doctors confirmed that Mike was cancer free.

Not being satisfied with dispensary marijuana, Mike developed his own strains, concentrating mostly on high CBD plus THC combinations. He now has generated dozens of amazingly powerful SHAROK cannabis strains for cancer treatment, but also for other diseases like epilepsy, Tourette syndrome, Parkinson's disease, MS, chronic pain management, sleep disorders, chemotherapy side effects, PTSD, etc.

For three years now, mother and son have worked in cancer support groups, sharing Mike's cannabis products with fellow patients. Patients' testimonials speak of their happiness and relief about their miraculous cannabis healings.

All proceeds from this book go toward their cancer support efforts.

In this manual you will learn about:

- How Mike's cannabis oil cured his own cancer and that of friends and fellow patients.
This means you don't have to wade through dozens of websites, books, YouTube videos or forums. Using this method you can start your own healing almost immediately
- The endocannabinoid system (our body's own cannabinoid manufacturing system)
- The cannabis plant
- THC versus CBD
- The healing powers of high CBD strains
- How to choose the best delivery method (smoking, vaporizing, ingesting, edibles, topical application or rectal administration)
- How to beware of hemp oil hustlers
- How to dose accurately.
Many cannabis patients have difficulty getting used to ingesting or using cannabis. While over-dosing tends to cause undesirable side effects, too little medicine reduces the effect. With this guide you will learn how to ease into cannabis treatment without difficulty and use the correct amounts at the right time.
- The complete SHORAK treatment plan for cancer
- SHORAK medicinal strains versus dispensary strains
- How to make your own cannabis oil
- New SHORAK cannabis medicinal strains currently under development
- And much, much more...

What are the advantages of using this book?

Using this technique, you'll quickly learn to prepare your own cannabis cancer medicine and thereby guarantee highest quality and steady availability. Each step is based on years of making cannabis oil and proven actual practice.

Just a few examples of what patients wrote about SHORAK cannabis medicine:

"After barely 5 months—all three cancers gone and completely off chemo."

"It has now been definitely concluded that I no longer show signs of cancer."

"WOW! From stage IV lymphoma and leukemia to full remission with SHORAK oil!" "

I have had a huge turnaround in the last few days...since I started taking SHORAK oil."

Editorial Review

About the Author

Dr. Erika Karohs is a retired college teacher and the founder of the Karohs International School of Handwriting Analysis. She has written more than 82 book on the subject of handwriting analysis. Her graphology courses are the only ones that have been accepted as part of the curriculum of the psychology department of an accredited University. Dr. Karohs is also the mother and caretaker of a cancer survivor. Her latest book "Marijuana Killed My Cancer and is keeping me cancer-free" tells her son Mike's amazing journey from cancer diagnosis to being cured with cannabis. For almost three years, Dr. Karohs and her son have been active in cancer support, working both through doctors and cancer support groups, encouraging patients to heal themselves with cannabis. While there are few guarantees when it comes to medicine, the cannabis treatments have resulted in amazing success stories with various forms of cancer. A patient with three cancers was in full remission within 5 months. A woman's marble-sized lump in her breast disappeared within three months without conventional therapy. Dr. Karohs and her son Mike believe that nobody has the right to cut patients off from some of the best medicine on earth. Their mission is to share information that will help cancer patients overcome the dreaded disease—to keep mothers alive for their children, husbands for their family, and to protect children from senseless death. They hope that their book will enable other cancer patients to use cannabis for their own healing miracles. Dr. Karohs and her son are currently involved in developing various illness-specific SHORAK cannabis strains, mostly for the treatment of cancer, but also for other diseases like epilepsy, Tourette syndrome, Parkinson's disease, MS, chronic pain management, sleep disorders, chemotherapy side effects, PTSD, etc. Due to legal restraints, they can currently only work with cancer patients in California. Hopefully, with further legalization, they will be able to share their strains, seeds, and oil with patients and doctors on a much greater level, perhaps even around the world.

Users Review

From reader reviews:

Barry Houde:

What do you ponder on book? It is just for students because they are still students or this for all people in the world, exactly what the best subject for that? Just simply you can be answered for that concern above. Every person has different personality and hobby for each and every other. Don't to be forced someone or something that they don't want do that. You must know how great as well as important the book MARIJUANA KILLED MY CANCER and is keeping me cancer-free: Step-by-step guide how to kill your cancer with cannabis. The healing miracle of CBD plus THC. All type of book are you able to see on many options. You can look for the internet sources or other social media.

Michael Johnson:
