

Sencha Architect App Development

By *Loiane Groner*

Sencha Architect App Development By Loiane Groner

In Detail

Sencha Architect is a visual app builder that empowers a developer (and a development team) to design, develop, and deploy apps from a single and integrated environment. It also provides support for Ext JS and Sencha Touch development.

Sencha Architect App Development is a practical, hands-on guide that will teach you how to develop a complete application with Ext JS and Sencha Touch. You will learn everything from creating the project, including creating the models, views, controllers and stores, to the build to production. Along the way, this book also highlights the Sencha Architect features that will help you to improve your productivity.

Sencha Architect App Development starts by describing Sencha Architect, the Toolbox, Project Inspector, Confi Panel, Toolbar, the Canvas: Design View, and Code Editor.

You will then learn how to develop a complete application with Ext JS using the MVC architecture, and also how to integrate Sencha Architect with server side code such as PHP and MySQL. You will also learn how to develop a complete application with Sencha Touch, and how to integrate Sencha Architect with PhoneGap (a third-party mobile open source library).

At the end of the book, you will be given some tips and tricks that will help your development even more, and you will also learn how to build, publish, and package an application natively using Sencha Command and Sencha Architect.

Approach

A standard tutorial-based approach for using Sencha Architect to develop applications in Ext JS and Sencha Touch.

Who this book is for

Sencha Architect App Development is for Ext JS and Sencha Touch developers that are looking to improve their productivity by using Sencha Architect for app development. Basic knowledge of Ext JS and Sencha Touch is required.

Editorial Review

About the Author

Loiane Groner

Loiane Groner lives in São Paulo, Brazil and has over 8 years of software development experience. While at university, she demonstrated great interest in IT. She worked as a teaching assistant for 2 and a half years specialising in teaching algorithms, data structures, and computing theory. She represented her university at the ACM International Collegiate Programming Contest, Brazilian Finals (South America Regionals), and also worked as Student Delegate of SBC (Brazilian Computing Society) for 2 years. She won a merit award in her senior year for being one of the top three students with the best GPAs in the Computer Science department and also graduated with honors.

She has already worked at multinational companies, such as IBM. Her areas of expertise include Java SE, Java EE, and also Sencha technologies (Ext JS and Sencha Touch). Nowadays, she is working as Software Development Manager at a financial institution, where she manages overseas solutions. She also works as an independent Sencha consultant and coach.

She has also authored books such as ExtJS 4 First Look and Mastering JS for Packt Publishing.

She is passionate about Sencha and Java, and is the CampinasJUG (Campinas Java Users Group) leader and ESJUG (Espírito Santo Java Users Group) coordinator, both Brazilian JUGs.

She also contributes to the software development community through her blogs: <http://loianegroner.com> (English) and <http://loiane.com> (Portuguese-BR), where she writes about IT careers, Ext JS, Sencha Touch, Spring Framework, and general development notes, and also publishes screencasts.

Users Review

From reader reviews:

Judith Lucas:

Throughout other case, little people like to read book Sencha Architect App Development. You can choose the best book if you appreciate reading a book. Given that we know about how is important the book Sencha Architect App Development. You can add expertise and of course you can around the world by way of a book. Absolutely right, due to the fact from book you can realize everything! From your country until eventually foreign or abroad you will end up known. About simple factor until wonderful thing you may know that. In this era, we are able to open a book or maybe searching by internet product. It is called e-book. You can utilize it when you feel fed up to go to the library. Let's read.

Marian Storie:

Playing with family within a park, coming to see the marine world or hanging out with good friends is thing that usually you may have done when you have spare time, after that why you don't try matter that really

opposite from that. One activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of knowledge. Even you love Sencha Architect App Development, you are able to enjoy both. It is very good combination right, you still desire to miss it? What kind of hangout type is it? Oh occur its mind hangout men. What? Still don't understand it, oh come on its known as reading friends.

Vincent Mickens:

This Sencha Architect App Development is new way for you who has attention to look for some information because it relief your hunger of knowledge. Getting deeper you into it getting knowledge more you know or perhaps you who still having small amount of digest in reading this Sencha Architect App Development can be the light food for yourself because the information inside this kind of book is easy to get by means of anyone. These books acquire itself in the form and that is reachable by anyone, sure I mean in the e-book contact form. People who think that in publication form make them feel tired even dizzy this guide is the answer. So you cannot find any in reading a publication especially this one. You can find what you are looking for. It should be here for anyone. So , don't miss this! Just read this e-book kind for your better life as well as knowledge.

Refugio Kennedy:

Reading a guide make you to get more knowledge from that. You can take knowledge and information from your book. Book is composed or printed or illustrated from each source in which filled update of news. With this modern era like today, many ways to get information are available for you actually. From media social including newspaper, magazines, science reserve, encyclopedia, reference book, story and comic. You can add your understanding by that book. Do you want to spend your spare time to open your book? Or just searching for the Sencha Architect App Development when you required it?
