### Editorial Review

From the Inside Flap

As a proclaimed trend follower I try to read everything written about the subject. Clenow has provided a wonderful addition to the trend following literature. His book, "*Stocks on the Move*" covers every aspect that needs to be considered including why not to do certain things. He then steps you through the creation of a complete strategy with enough detail that anyone can use it. Toward the end he even goes through each year since 1999 on the strategy and how it performed. This is a book you should own.

Gregory L. Morris, author of *Investing with the Trend*, *Candlestick Charting Explained*, and *The Complete Guide to Market Breadth Indicators*. Greg writes a blog for StockCharts.com called *Dancing with the Trend*.
