Editorial Review

Review

"All academic libraries supporting high-level work on linguistics, language acquisition, or inter-personal communication should seriously consider both this and the Blackwell Companion to Syntax for acquisition." (*Reference Reviews*, 2012)

Review

"The *Companion* is a lively, accessible and superbly organized world tour of Phonology, covering all the territory a reader could hope for, with some extra, unexpected gems."

—**April McMahon**, University of Edinburgh

"*The Companion to Phonology* is an encyclopedia of the problems and puzzles that have occupied the field over the past fifty years. It systematizes what we have learned and provides a platform for future work...a reference tool that working phonologists will turn to daily."

—**Michael Kenstowicz**, Massachusetts Institute of Technology

"This set will be the indispensable go-to guide for anyone embarking on a research project in any of the more than 100 different phenomena covered. By choosing younger authors as well as established scholars, the editors have ensured that this work is timely and reflects a diversity of viewpoints."

—**John J. McCarthy**, University of Massachusetts, Amherst

"This set is a remarkable achievement; the comprehensiveness of the coverage of phenomena and issues that have been central to phonological studies is unequalled. Assuredly, it will be the standard reference tool in phonology for decades to come."

—**Glyne Piggott**, McGill University

From the Back Cover

The Blackwell Companion to Phonology is a major reference work drawing together 124 new contributions from leading scholars in the field. Led by a team of renowned international scholars, the Companion represents a diverse range of approaches and methodologies to key phenomena in phonological research. In contrast to other handbooks and reference works currently available for phonology, these volumes focus on phenomena and case studies that highlight past and ongoing debates in the field. Interdisciplinary connections, such as those with the social and computational sciences, are covered, as well as statistical and experimental techniques. The Companion will be a touchstone for future phonological theorists, giving an overview of data and insights which any theory of phonology should be able to cover.

Simultaneously offering broad coverage and a high level of detail, *The Blackwell Companion to Phonology* is a landmark work available in both print and online editions that will be indispensable to students and researchers in the field for years to come.

Volume I: General Issues and Segmental Phonology

Volume II: Suprasegmental and Prosodic Phonology

Volume III: Phonological Processes

Volume IV: Phonological Interfaces

Volume V: Phonology Across Languages

Users Review

From reader reviews:

Vernie Ruiz:

The reason? Because this The Blackwell Companion to Phonology, 5 Volume Set is an unordinary book that the inside of the reserve waiting for you to snap the idea but latter it will zap you with the secret it inside. Reading this book beside it was fantastic author who all write the book in such wonderful way makes the content interior easier to understand, entertaining method but still convey the meaning entirely. So , it is good for you for not hesitating having this ever again or you going to regret it. This amazing book will give you a lot of rewards than the other book have got such as help improving your ability and your critical thinking way. So , still want to hold up having that book? If I were you I will go to the book store hurriedly.

Bernadine Williams:

Reading a book to be new life style in this 12 months; every people loves to read a book. When you learn a book you can get a lot of benefit. When you read books, you can improve your knowledge, due to the fact book has a lot of information upon it. The information that you will get depend on what forms of book that you have read. If you would like get information about your research, you can read education books, but if you act like you want to entertain yourself look for a fiction books, these kinds of us novel, comics, and also soon. The The Blackwell Companion to Phonology, 5 Volume Set provide you with a new experience in looking at a book.

Robert Araiza:

Is it anyone who having spare time then spend it whole day by watching television programs or just laying on the bed? Do you need something totally new? This The Blackwell Companion to Phonology, 5 Volume Set can be the solution, oh how comes? A book you know. You are therefore out of date, spending your free time by reading in this fresh era is common not a geek activity. So what these publications have than the others?

Nicolas Dandrea:

A lot of guide has printed but it takes a different approach. You can get it by world wide web on social media. You can choose the best book for you, science, comic, novel, or whatever through searching from it. It is known as of book The Blackwell Companion to Phonology, 5 Volume Set. You'll be able to your knowledge by it. Without making the printed book, it can add your knowledge and make you happier to read. It is most important that, you must aware about book. It can bring you from one place to other place.
