

Complete Book of Framing: An Illustrated Guide for Residential Construction

By Scot Simpson

Complete Book of Framing: An Illustrated Guide for Residential Construction By Scot Simpson

The updated easy-to-learn reference for rough carpentry and framing

Complete Book of Framing, Second Edition is an updated, easy-to-learn guide to rough carpentry and framing written by an expert with more than thirty years of framing experience. This book guides the reader through the steps on framing floors, walls, roofs, door and window openings, and stairs. Hundreds of color photographs and illustrations help the reader understand the basics as well as advanced framing methods. This *Second Edition* is updated to match the framing techniques to the 2009 International Building Code, and introduces the concept of "green framing" regarding material use and handling.

- Deals with the new corrosive treating methods that began to be used in 2004 for pressure treated wood
- Covers the time and energy-saving benefits of positive placement nail guns, which have become the industry standard for fastening light gage hardware
- Includes a glue-laminated beam weight chart, along with a description of crane operations for setting these beams

Starting with the basics, this book begins with types of lumber, nails, and what tools are needed, followed by detailed, fully illustrated steps for framing each building element—from planning and layout through specific nailing patterns. Framer-Friendly Tips throughout the book show how to get a task done right—and more easily.

Editorial Review

Users Review

From reader reviews:

Mollie Walker:

Book is actually written, printed, or highlighted for everything. You can know everything you want by a e-book. Book has a different type. To be sure that book is important thing to bring us around the world. Close to that you can your reading proficiency was fluently. A publication Complete Book of Framing: An Illustrated Guide for Residential Construction will make you to be smarter. You can feel far more confidence if you can know about every little thing. But some of you think this open or reading a new book make you bored. It is not make you fun. Why they could be thought like that? Have you searching for best book or suited book with you?

John Richey:

The book Complete Book of Framing: An Illustrated Guide for Residential Construction can give more knowledge and also the precise product information about everything you want. Why then must we leave the great thing like a book Complete Book of Framing: An Illustrated Guide for Residential Construction? A number of you have a different opinion about e-book. But one aim that will book can give many facts for us. It is absolutely right. Right now, try to closer with your book. Knowledge or information that you take for that, you could give for each other; you can share all of these. Book Complete Book of Framing: An Illustrated Guide for Residential Construction has simple shape however you know: it has great and massive function for you. You can search the enormous world by open up and read a reserve. So it is very wonderful.

Arlene Wilson:

The reason why? Because this Complete Book of Framing: An Illustrated Guide for Residential Construction is an unordinary book that the inside of the reserve waiting for you to snap it but latter it will jolt you with the secret it inside. Reading this book adjacent to it was fantastic author who also write the book in such amazing way makes the content on the inside easier to understand, entertaining technique but still convey the meaning thoroughly. So , it is good for you for not hesitating having this ever again or you going to regret it. This phenomenal book will give you a lot of gains than the other book get such as help improving your skill and your critical thinking way. So , still want to hesitate having that book? If I have been you I will go to the guide store hurriedly.

Rosemary Lilly:

As a student exactly feel bored to help reading. If their teacher inquired them to go to the library or make

summary for some reserve, they are complained. Just small students that has reading's spirit or real their interest. They just do what the teacher want, like asked to go to the library. They go to presently there but nothing reading seriously. Any students feel that studying is not important, boring in addition to can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this Complete Book of Framing: An Illustrated Guide for Residential Construction can make you experience more interested to read.
