Editorial Review

Review

This book has made learning so much easier and more fun. I have the CD on my laptop and can listen to the short dialogues in between other work. The units are also of a manageable length and so I tend to dip in and out of them throughout my working day. ... I can heartily recommend this publication. Amazon user June 2011 It has a nice broad outlook and progresses slowly but surely. Grammar inserts are also helpful. For adult groups it is an excellent book, as always solo learners need incentives to continue. Amazon user June 2010 This French course is very well known and highly effective: it is widely used in adult education classes ... I recommend it unreservedly. Amazon user June 2010
