## How To Crush Pot Limit Omaha Cash Games By Viktor

In this book I have compiled all the lessons that my pupil learns the hard way playing PLO 50, PLO 100, PLO 200. In PLO you need to be aware of situations and be wary of dangerous situations that will increase swings and cause tilt. I am sharing actual hand screenshots from HM2 Hand re-player showing you the actually equity percentage of hand examples. I have shared over 50 examples that will go a long way in your understanding of the game. If you play Omaha hi/low, Omaha hi, or if you are an amateur or even a micro or small stakes professional player you would find the examples highly add to your understanding of the equity situations. Check if you know all of this, if you can answer all the questions that follow you probably do not need to read this book • Can you recall a situation in which you had only 1% equity in the hand on the flop? Can you imagine such a scenario and with what hands this could take place? • Did you know that even with the best starting hand AAKK you could still have only 51% equity in the hand? • Do you play the according to your stack size and keep in mind Stack to Pot Ratio? • Are you aware of Equity Complexities in a multi way pot? • Do you play PLO with pot commitment in mind? • Have you ever used Omaha Odds calculator, do you know the equity of the best hand versus a loose opponent's range? Even if you are an amateur and you are going to Vegas for fun you could still, get the gist of the game very quickly having to lose thousands of dollars. What's more you could even beat the pros and get them steaming and hitting the rail by the style that you will learn in this game. If however you are an online player, I am sure by watching the actual screenshots of hands with equity and key points you will learn some new things that will increase your net profits. In the last chapter I share real world examples from the high stakes games on Full Tilt Poker, I believe analyzing these hands will set you up to learn very precious lessons worth thousands of dollars without losing the same dollar amount. It is always better to learn lessons from other's mistakes rather than from our own. Most of the examples are from USD 5/10\$ stakes and you should be able to play 25/50USD\$ blinds live and upto 5/10\$ blinds with much less variance and more profits, if you really take each lesson to heart. All of the information in this book is succinct and presented as a real world example so that the reader does not get confused. The material is succinct but provides lessons that would add thousands of dollars of profit to a learning reader who will play the game for years to come. This is yet another investment that will pay off big in the long run, the 2nd best investment to buying Hold'em Manager 2.
