Successful Business Intelligence, Second Edition: Unlock the Value of BI & Big Data (Database & ERP - OMG) By Cindi Howson

Revised to cover new advances in business intelligence—big data, cloud, mobile, and more—this fully updated bestseller reveals the latest techniques to exploit BI for the highest ROI.

“Cindi has created, with her typical attention to details that matter, a contemporary forward-looking guide that organizations could use to evaluate existing or create a foundation for evolving business intelligence / analytics programs. The book touches on strategy, value, people, process, and technology, all of which must be considered for program success. Among other topics, the data, data warehousing, and ROI comments were spot on. The ‘technobabble’ chapter was brilliant!” —*Bill Frank, Business Intelligence and Data Warehousing Program Manager, Johnson & Johnson*

“If you want to be an analytical competitor, you’ve got to go well beyond business intelligence technology. Cindi Howson has wrapped up the needed advice on technology, organization, strategy, and even culture in a neat package. It’s required reading for quantitatively oriented strategists and the technologists who support them.” —*Thomas H. Davenport, President’s Distinguished Professor, Babson College and co-author, Competing on Analytics*

“Cindi has created an exceptional, authoritative description of the end-to-end business intelligence ecosystem. This is a great read for those who are just trying to better understand the business intelligence space, as well as for the seasoned BI practitioner.” —*Sully McConnell, Vice President, Business Intelligence and Information Management, Time Warner Cable*

“Cindi’s book succinctly yet completely lays out what it takes to deliver BI successfully. IT and business leaders will benefit from Cindi’s deep BI experience, which she shares through helpful, real-world definitions, frameworks, examples, and stories. This is a must-read for companies engaged in – or considering – BI.” —*Barbara Wixom, PhD, Principal Research Scientist, MIT Sloan Center for Information Systems Research*
