## Teaching Exceptional Children: Foundations and Best Practices in Inclusive Early Childhood Education Classrooms By Mojdeh Bayat

*Teaching Exceptional Children* is an ideal textbook for introductory graduate and undergraduate courses on early childhood special education and teaching in inclusive classrooms. Bayat's clear and accessible writing, a visually appealing design, and focused pedagogy in each chapter help make it possible to cover a significant amount of material. This powerful text identifies specific behavioral characteristics and presents theoretical information grounded in neuroscience and child development research for a wide range of disabilities. Research-based best practices for effectively working with children with various disabilities in inclusive classrooms are provided in each chapter. The second edition has been fully updated based on the *DSM-5*, and includes new sections on contemporary issues in inclusion of children with disabilities in early childhood classrooms, such as challenging behaviors, using technology, at-risk children, promoting mental health, and family issues.

A robust pedagogical program, along with online resources for instructors and students, provides full support, including:

- **Chapter Objectives and Key Terms** help frame each chapter
- **Discussion, Critical Thinking, Essay/Short Answer, and Review Questions** at the beginning, throughout, and concluding chapters prompt students to fully engage with the material
- **Homework/Field Assignments** provide opportunities for students to apply their knowledge to real-world situations
- **Real-Life Vignettes** illustrate concepts in action
- **Color Photos, Figures, and Tables** clarify concepts in a visually engaging way
- **Recommended Resources and References** offer guidance for further study

- [www.routledge.com/9781138802209](http://www.routledge.com/9781138802209) includes a link to an Instructor's Manual with ideas for assignments and projects, grading and assessment rubrics, and learning outcomes (see the e-Resource tab). A full companion website ([www.routledge.com/cw/bayat](http://www.routledge.com/cw/bayat)) is under construction and will provide video and web links, discussion questions, test bank, PowerPoints, and a sample syllabus.

### Editorial Review

#### Review

In this second edition, Mojdeh Bayat offers a sensible discussion of young children with special needs from birth through age eight, including rich vignettes, solid research, and many useful pedagogical features. It is rare to see a book with such a clear focus on the developmental trajectory of childhood and implications for family-centered collaboration in the best interests of young children. *Teaching Exceptional Children* is a gem for all teacher candidates.

--Gayle Mindes, Professor of Education, DePaul University

### Users Review

#### From reader reviews:

##### Adrian Woodson:

Spent a free time to be fun activity to complete! A lot of people spent their leisure time with their family, or all their friends. Usually they accomplishing activity like watching television, likely to beach, or picnic from the park. They actually doing same task every week. Do you feel it? Will you something different to fill your free time/ holiday? Might be reading a book could be option to fill your totally free time/ holiday. The first thing that you'll ask may be what kinds of guide that you should read. If you want to consider look for book, may be the publication untitled Teaching Exceptional Children: Foundations and Best Practices in Inclusive Early Childhood Education Classrooms can be good book to read. May be it might be best activity to you.

##### Harold Sparkman:

People live in this new morning of lifestyle always make an effort to and must have the time or they will get wide range of stress from both way of life and work. So , whenever we ask do people have time, we will say absolutely of course. People is human not just a robot. Then we ask again, what kind of activity do you have when the spare time coming to you actually of course your answer will unlimited right. Then do you ever try this one, reading guides. It can be your alternative in spending your spare time, the book you have read is definitely Teaching Exceptional Children: Foundations and Best Practices in Inclusive Early Childhood Education Classrooms.

**Rebecca Lopez:**

Do you like reading a e-book? Confuse to looking for your preferred book? Or your book was rare? Why so many issue for the book? But any people feel that they enjoy to get reading. Some people likes reading, not only science book but novel and Teaching Exceptional Children: Foundations and Best Practices in Inclusive Early Childhood Education Classrooms or even others sources were given expertise for you. After you know how the truly amazing a book, you feel want to read more and more. Science guide was created for teacher as well as students especially. Those books are helping them to bring their knowledge. In additional case, beside science reserve, any other book likes Teaching Exceptional Children: Foundations and Best Practices in Inclusive Early Childhood Education Classrooms to make your spare time more colorful. Many types of book like this.

**Angel Jones:**

As a university student exactly feel bored in order to reading. If their teacher questioned them to go to the library or make summary for some publication, they are complained. Just minor students that has reading's soul or real their hobby. They just do what the teacher want, like asked to the library. They go to right now there but nothing reading seriously. Any students feel that studying is not important, boring along with can't see colorful pics on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Teaching Exceptional Children: Foundations and Best Practices in Inclusive Early Childhood Education Classrooms can make you really feel more interested to read.
