By Mitch Stokes

How to Be an Atheist (Foreword by J. P. Moreland): Why Many Skeptics Aren't Skeptical Enough By Mitch Stokes

Atheists talk a lot about the importance of skepticism. But the truth is, they're not nearly skeptical enough.

While atheists champion the importance of a critical stance toward religion, they often fail to take that same stance toward their own beliefs. This double standard results in grandiose claims about the certainty of their unbelief—which is logically inconsistent at best and intellectually dishonest at worst. Turning atheists' skepticism around on their own naturalist worldview, philosopher Mitch Stokes critically examines two things that such skeptics hold dear—science and morality—and reveals deep inconsistencies among their most cherished beliefs, inconsistencies that threaten to undo atheism itself.

Editorial Review

Review

“*How to Be an Atheist* is the best popular discussion of the (alleged) conflict between science and religion that I have ever read. The book is well written, well organized, and philosophically sophisticated. Moreover, the author’s knowledge of science, the history of science, and the history of ‘the conflict between science and religion’ is admirably suited to his purpose. Above all, the book is *accessible*. No reader who is interested in questions about the relation between science and religion will have any difficulty in following the author’s arguments.”

—**Peter van Inwagen**, John Cardinal O’Hara Professor of Philosophy, University of Notre Dame

“How many times has atheistic naturalism appeared to be a charade, like a shell game where you never seem to see all the steps of the process? Or how frequently have you been told that atheists are too soft—that they must be even more rigorously skeptical? But then when they do follow their own system, there is nothing left with which to build their worldview! Get ready—you’re embarking on a challenging journey here. In this volume, Mitch Stokes uncovers issue after issue where atheistic naturalism looks more like the king who wore no clothes, and Stokes is the one to give him the message! This is must reading—I recommend it highly!”

—**Gary R. Habermas**, Distinguished Research Professor and Chair, Philosophy Department, Liberty University

“I’ve been saying for years that professional skeptics are not skeptical enough, that they are selective in their skepticism, and that if they ever turned their skeptical faculties on their own skepticism and the materialist worldview that almost invariably comes attached to it, they would see the house of cards they’ve built collapse of its own internal inadequacies. Mitch Stokes, in this incisive book, does a wonderful job filling in the details to this charge against skepticism.”

—**William A. Dembski**, Senior Fellow, Center for Science and Culture, Discovery Institute; author, *Being as Communion*

“*How to Be an Atheist* is both readable and well documented, both incisive and wide-ranging. It is a wise book that exposes the dead-end reasoning and ultimately antihuman positions of modern skepticism. If you’re looking for an accessible book to take you through the host of such skeptical arguments against belief in God, this is it!”

—**Paul Copan**, Pledger Family Chair of Philosophy and Ethics, Palm Beach Atlantic University

“Opponents of Christianity have often claimed that science disproves the God of the Bible. But actual scientists and philosophers of science have been far more modest, expressing serious reservations about the use of science to prove anything about the origin and ultimate nature of the world. In this book, Stokes expresses a deep respect for science, but like the best scientists themselves, is carefully skeptical about the idea that science is our final gateway to truth. He also argues that despite all recent claims to the contrary, morality does not make sense without God. The book deals with some highly technical matters in a learned way, but with wit and clarity. I profited from it very much.”

—**John M. Frame**, J. D. Trimble Chair of Systematic Theology and Philosophy, Reformed Theological Seminary, Orlando

“Mitch Stokes takes the so-called new atheists out to the intellectual woodshed. His clear and powerful double whammy against atheism—it is difficult to ground morality in science, and it is difficult to ground science on atheism—shows just how much faith it takes to be an atheist.”

—**Kelly James Clark**, Senior Research Fellow, Kaufman Interfaith Institute; The Honors Program, Brooks College

“In this superbly executed book, Mitch Stokes makes a solid and creative case for why many atheists aren't skeptical enough. If they were consistent ‘sober skeptics,’ he argues, their view of the world would be radically reimagined. For those—whether believer, agnostic, or atheist—who are not afraid to follow the truth, wherever it may lead, this book is a must-read.”

—**Chad V. Meister**, Professor of Philosophy and Theology, Bethel College; author, *Evil: A Guide for the Perplexed*

About the Author

Mitch Stokes (PhD, Notre Dame) is a senior fellow of philosophy at New St. Andrews College in Moscow, Idaho. He holds a PhD in philosophy, an MA in religion, and an MS in mechanical engineering and previously worked for an international engineering firm where he earned five patents in aeroderivative gas turbine technology.

J. P. Moreland (PhD, University of Southern California) is distinguished professor of philosophy at Biola University. He is an author of, contributor to, or editor of over ninety books, including *The Soul: How We Know It's Real and Why It Matters*.

Users Review

From reader reviews:

Nathan Ramsey:

Reading a publication can be one of a lot of task that everyone in the world likes. Do you like reading book therefore. There are a lot of reasons why people enjoy it. First reading a publication will give you a lot of new details. When you read a reserve you will get new information since book is one of various ways to share the information or maybe their idea. Second, reading a book will make an individual more imaginative. When you reading through a book especially tale fantasy book the author will bring you to definitely imagine the story how the characters do it anything. Third, you could share your knowledge to some others. When you read this How to Be an Atheist (Foreword by J. P. Moreland): Why Many Skeptics Aren't Skeptical Enough, you could tells your family, friends in addition to soon about yours book. Your knowledge can inspire the mediocre, make them reading a publication.

Mohammad Darling:

Reading a e-book tends to be new life style with this era globalization. With examining you can get a lot of information which will give you benefit in your life. With book everyone in this world can easily share their idea. Textbooks can also inspire a lot of people. A great deal of author can inspire their particular reader with their story as well as their experience. Not only the story that share in the publications. But also they write about the data about something that you need instance. How to get the good score toefl, or how to teach your

sons or daughters, there are many kinds of book which exist now. The authors these days always try to improve their ability in writing, they also doing some investigation before they write with their book. One of them is this How to Be an Atheist (Foreword by J. P. Moreland): Why Many Skeptics Aren't Skeptical Enough.

Ronald Tanaka:

Can you one of the book lovers? If so, do you ever feeling doubt while you are in the book store? Attempt to pick one book that you just dont know the inside because don't determine book by its deal with may doesn't work is difficult job because you are scared that the inside maybe not because fantastic as in the outside look likes. Maybe you answer is usually How to Be an Atheist (Foreword by J. P. Moreland): Why Many Skeptics Aren't Skeptical Enough why because the excellent cover that make you consider concerning the content will not disappoint you. The inside or content is usually fantastic as the outside or cover. Your reading sixth sense will directly make suggestions to pick up this book.

John Negrón:

That e-book can make you to feel relax. This book How to Be an Atheist (Foreword by J. P. Moreland): Why Many Skeptics Aren't Skeptical Enough was bright colored and of course has pictures on the website. As we know that book How to Be an Atheist (Foreword by J. P. Moreland): Why Many Skeptics Aren't Skeptical Enough has many kinds or style. Start from kids until young adults. For example Naruto or Detective Conan you can read and feel that you are the character on there. Therefore not at all of book are usually make you bored, any it makes you feel happy, fun and rest. Try to choose the best book for yourself and try to like reading that.
